## Work Experience

### TeamXchange - Web Developer Intern

June 2021 - present

Chicago, IL

- Actively engaged in web creative design and development.
- Assisted in product development and enhancements of current suite to boost engagement by 15%.
- Provided technical support for 5+ existing online products.
- Provided professional customer service, managing 50+ phone and email requests a day.
- Created and deployed mobile-first applications while learning new languages and frameworks.
- Developed innovative techniques to allow clients to use headless Content Management Systems with Google sheets to manage all marketing material.

## Projects

### Gemini Messenger - Creator

- Developed front-end user experience using React.JS, Python, Redux, and RESTful APIs.
- Allowed users to have a customized experience based on the mood of the user throughout the entire experience of the application.
- Built app with React while managing State through Asynchronous Redux Actions using Redux Thunk.
- Implemented the React Router DOM to allow nested RESTful routing.

### Food Frenzy - Creator

- Designed a business locator for food businesses with 4.8+ star ratings.
- Developed front-end with HTML, CSS, Bootstrap, and Vanilla JS.
- Created Mobile Responsive User Experience with CSS Grids that allowed the user to view any searched business on a Google Map experience.
- Integrated with Google APIs to search for businesses based on either longitude/latitude combinations, addresses, and business names.
